Description

The emblematic building stretches over six floors with a total usable area of 1,145 square meters. The phenomenal master suite with studio holds a separate private terrace with unobstructed panoramic sea & harbor views - leaving you feeling like the Queen & King of Puerto de Andratx! Five further bedrooms with en-suite bathrooms, and a one-staff/nanny flat with its own entrance & wellness areas with indoor pools complete this remarkable project's VIP offering. Noteworthy highlights include a possible upper area that may be built into a large guest house in the future (if desired), various light-flooded Mediterranean-style living areas, a heated outdoor pool, relaxation & spa areas, fitness plus yoga retreat zones, jacuzzi, garage spaces, lifts to all levels, cinema, bar, rustic wine cellar, countless terrace areas, heat pump and solar technology, KNX home control/alarm systems, unique ventilation system during absence - all appliances accounted for that you can imagine. The unique building regulations of this plot mean that a building of this size (i.e. 6 floors high & more than 1,000 m² of usable living space), will never again be feasible in the harbor of Andratx - in this unbeatable location! The building / renovation permits for this project has already been granted and the new potential owner can start renovating this historic property immediately. Photos by Kristina Müller.
